

CAMPING

Our campground is located on the banks of the Wisconsin River. All of our sites in the main campground afford spectacular views of the river. The area is lightly wooded, providing a mix of sun and shade. We can accommodate tents, pop ups and full size campers. Some sites are not suitable for large campers. Please let us know what type of unit you will be camping in so that we may best meet your needs.

All of our sites in the main campground are equipped with electricity. There are two centrally located water spigots for fill ups. We provide porta potties directly adjacent to the campground and a bath house with hot showers and flush toilets just up the path. The restaurant and bar is just steps from the campground. A volleyball court is located adjacent to the campsites. A dump station is available. Each site has a picnic table and a fire ring.

We have a primitive camp area which is an open grassy field. This area is not located on the river banks. There is no electricity or water on these sites. We do provide fire rings. This area is quite sunny and we suggest you bring some sort of canopy to provide shade for your site.

Quiet time for the campground is from 10 p.m. until 7 a.m. At these times we ask that you please keep your music and your voices low so that everyone, whether they are late nighters or early risers may enjoy their camping experience.

Trash bins and recycle bins are located near the resort entrance. We ask that you separate your trash and recyclables and deposit them in the proper bins as you leave. Do not leave trash on your site or in the fire rings. If your site requires excessive clean up, there will be a fee imposed.

We are a pet friendly resort. Dogs must be well behaved and non aggressive. They must be leashed at all times and you must clean up after them.
